Final Acceptance into the PhD Global Health Program 2025

Dear Augustine Masinde,

Congratulations! We are very pleased to confirm your full acceptance in the **PhD Program Global Health** at Charité – Universitätsmedizin Berlin. The selection process was very competitive and involved a careful review of your prior background, career development goals along with your proposed research ideas, funding, and supervisory team.

Please submit this letter to the **Charité Office for Doctoral Studies** ("Promotionsbüro") together with the formal registration of your doctoral project as proof of full acceptance into the program.

The planned duration of the PhD Global Health structured program is **three years**. While the program coursework formally begins with the orientation in September 2025, we encourage you to continue discussing your doctoral project with your supervisory team at this time.

We look forward to seeing you in Berlin soon!

Sincerely

Dr. Nina Adelberger

Director of Academic Programs, on behalf of the PhD Global Health Board
